

To whom it may concern

RE: K-13 ACCOUSTICAL INSULATION

As a church with a young congregation that loves full music, we were looking for a product to suit the size of our building to give us quality & good sound.

As a church we are always conscious of budget however we realized that we would pay in sound quality no paying the money. We have now realized that the cost overall with the expense of our new addition was very minor.

Are we please with the product? Yes!

- Our church services are outstanding
- There is no distortion in our building
- We have had seniors remove their hearing aids saying "I can hear!"
- Our Sanctuary is asked for hosting community events, weddings, funerals & concerts because of our sound quality.

We as a congregation do recommend this product to enhance your sound quality.

Best Regards
Sincerely
